Himalayan Salt for Commercial & Industrial Uses

Deicing Salt /Road Salt

When applied to snow or ice, salt lowers the melting point of the Mixture.
Thus, large amounts are used in
Northern climates to rid streets of Accumulated snow and ice

Salt for Water softening

pure salt and a typical of 99.8% sodium chloride, virtually 100% water soluble ,
helps eliminate brine tank clean out necessitated by Insoluble material

Salt for Brine Solution

greatest single use for salt is as a feedstock for the Production of chemicals,
the color-alkali industry uses salt primarily as
salt in Brine from captive brine wells to produce chlorine and caustic soda
